ENOUGH IS ENOUGH

Administrative interference.

WE WANT

More departmental autonomy.

Departments are under pressure to standardize.
Our employers want to entrust departmental responsibilities
to committees over which they have greater control.

autonomy in 2020.**

TEACHERS UNITED

ENOUGH IS ENOUGH

Teaching tasks handed out to other personnel.

WE WANT

Recognition of our expertise, our role, our prerogatives.

Our employers entrust bits and pieces of our work to so-called “content experts” who aren’t teachers, hired at arbitrary rates. This has to end.

**FIGHT for our professional
autonomy in 2020.**

ENOUGH IS ENOUGH

Being taken to task for a book choice or an opinion piece.

WE WANT

Real academic freedom and freedom of expression.

As members of the higher education community and experts in our disciplines, we're often called on to comment on social issues. It's time for our collective agreement to reflect this.

autonomy in 2020.**
